PROGRAM COMMITTEE:

Cindy Hoorn, Ph.D., *Chairperson*
Charles B. Bisgaier, Ph.D.
Molly Greene
Katherine Wiklanski, M.P.A.

Join us for a full day didactic and interactive training course for new as well as seasoned IACUC members, IACUC affiliates including IACUC administrators, trainers, veterinarians, animal care staff, researchers, regulatory personnel, individuals responsible for their institution's animal care program, and others interested in IACUC roles and responsibilities. The program is delivered by a top-notch faculty renowned for their expertise in institutional animal care and use issues and program development, including representatives from both private and academic biomedical research institutions, as well as the AAALAC, OLAW, and USDA. The morning and afternoon breakout sessions will provide a basic yet comprehensive overview of the laws, regulations, and policies that govern the humane care and use of laboratory animals, supplemented with examples and possible approaches for successful and effective administration. Current resources to help IACUCs keep abreast of the latest information as well as take advantage of networking opportunities will also be covered. Please join your colleagues as we share insights on the best way to achieve compliance, while maintaining the balance between assuring animal welfare and facilitating valuable research, testing, and teaching.

10:00 AM BREAK

10:15 AM BREAKOUT SESSIONS

CONCURRENT SESSIONS

IACUC -1 Basic IACUC

Molly Greene

A review of the primary PHS/USDA/AAALAC expectations for an animal care program. Straightforward information with lists and checklists designed to facilitate compliance. Great for relative newcomers or those looking for a refresher course.

IACUC -2 Advanced IACUC

Keeping Up with the Requirements in Regulatory Oversight
Kate Wiklanski

It seems that a few years ago the only things IACUC members had to worry about were protocol review and semiannual inspections of the animal care and use program. However, today this list has expanded to include more and more. Recently, current topics of concern have been training, post-approval monitoring, occupational health and safety, and comparing grant applications to animal protocols. This presentation will explore these hot button topics that are being aggressively addressed by various IACUCs.

12:15 PM LUNCHEON

FACULTY

KEYNOTE SPEAKER

Ernest D. Prentice, Ph.D.

Dr. Prentice is the Associate Vice Chancellor for Academic Affairs at the University of Nebraska Medical Center (UNMC). He is also Professor of Genetics, Cell Biology and Anatomy, and Professor of Preventive and Societal Medicine. Dr. Prentice has served as co-chair of the UNMC Institutional Review Board (IRB) for over 23 years, and served as co-chair of the UNMC Institutional Animal Care and Use Committee (IACUC) for 12 years.

Molly Greene

Ms. Greene retired from her position of Director of the Department of Academic support at The University of Texas Health Science Center at San Antonio in 2003. A major area of responsibility was the University's continued compliance and accreditation for the use of animals in biomedical research and education. In this capacity, Ms. Greene served as coordinator of the Health Science Center's institutional animal care program from 1986–2003. Ms. Greene is an advisor on IACUC issues and provides IACUC training since leaving the Health Science Center.

Kurt Hammel, D.V.M.

Dr. Hammel is a Veterinary Medical Officer with USDA, Animal and Plant Health Inspection Service (APHIS), and Animal Care. He inspects animal dealers, exhibitors, and research facilities in Michigan for compliance with the Animal Welfare Act.

Peter R. Kirsten, D.V.M., B.S., B.A.

Dr. Kirsten was a field Veterinary Medical Officer for Indiana prior to becoming the Supervisory Animal Care Specialist for several states in the Midwest. He has supervisory responsibility for ten inspectors, six Veterinary Medical Officers, and four Animal Care Inspectors in Michigan, Ohio and part of West Virginia, Indiana, Kentucky, Tennessee, and Mississippi.

Paul G. Schofield, M.Ed., B.A.

Detective Schofield is a 33 year veteran of the Michigan State University Police Department. His professional duties have included uniformed patrol, Community Police Officer, D.A.R.E. officer, fraud investigator, defensive tactics instructor, firearms instructor, emergency and pursuit driving consultant, Highway Traffic Safety adjunct professor, and physical security and alarm specialist. Detective Schofield received several Life Saving awards, a Meritorious Service Award, the Lansing Community College's Community Leadership and Service Award, and the Michigan State University's Jack Breslin Distinguished Staff Award.

Joseph D. Thulin, D.V.M., M.S., DAACLAM

Dr. Thulin is attending Veterinarian and Manager, Veterinary Services Department, 3M Health Care Business, 3M Company, St. Paul, Minnesota. Previously directed animal resource units at the University of Connecticut Health Center, University of Wisconsin Medical School, and the University of Illinois at Urbana-Champaign. Dr. Thulin is board certified in laboratory animal medicine and currently serves on the AAALAC International Council on Accreditation.

Kathryn Wiklanski, M.P.A., B.A.

Ms. Wiklanski is Coordinator of Research Animal Standards and Staff Development in the Office of the University Committee on the Use and Care of Animals (UCUCA) at the University of Michigan. Her career includes research experience in pharmacology/toxicology at a biotech company in Cambridge, Massachusetts.

Axel Wolff, D.V.M., M.S.

Dr. Wolff currently serves as a Senior Assurance Officer in the Division of Assurances, Office of Laboratory Animal Welfare (OLAW) at the National Institutes of Health (NIH). He is a Commissioned Officer in the US Public Health Service and has attained the rank of Captain. Prior to joining OLAW, he was the director of the Veterinary Resources Program, NIH's intramural biomedical research support program. Dr. Wolff serves on the editorial board of *Lab Animal*.
